

# How to create a stunning centerpiece arrangement

Learn to create beautiful floral arrangements with basic techniques anyone can learn.

## INGREDIENTS

- 3-4 foliage branches - mint, basil, grasses
- 2-3 foundation flowers - hydrangea, roses etc.
- 2 focal blooms - peony, rose etc.
- 3-5 petit blooms - phlox, larkspur etc.
- 2 sprouties - scabiosa, cosmos, ranunculus
- 3-4 twirly vines - jasmine, honeysuckle etc.

## DIRECTIONS

Start with the base foliage, angle them to create shape and drama. Allow leaves to spill over and cover the container edge. Nest the foundation flowers - snuggle them in but not too deep. Face the focus blooms outward (not pointing straight up!)

Place the petit blooms slightly above the focal blooms. Add the sprouties, think of these as fairies dancing over the arrangement. Now add the twirly vines around the bottom and one or two in the middle to create a little whimsy. Viola! Enjoy your beautiful centerpiece and get ready for all the oohs and ahhs from guests!
